

British Shorthair

General Standard

The British Shorthair is a medium to large, solid, powerful cat of rounded contours, without any tendency to be coarse or fat. Its very dense, highly resilient coat distinguishes it from other breeds. Males can be expected to be considerably more massive than females and the breed generally does not reach full maturity for several years.

Head	Large and round, with good breadth of skull, well set on a short, thick neck. It has a round face, with round underlying bone structure, and has rounded contours when seen from any perspective. In profile, it has a rounded skull, which has equal depth front and back, curving down to only a slight indentation in the bridge of the nose and a firm, deep chin.
Ears	Small, well furnished, rounded at the tips, set well apart and fitting into the rounded contour of the skull.
Eyes	Large, round, well-opened, creating a pleasing expression. They are also level and set wide apart with at least the width of an eye between them to emphasise the breadth of the nose
Nose	Short, straight and broad. It has a slight indentation in profile, but not a definite nose break or stop. The nose should not taper and should end with a nose leather of width equal to that of the nose. Nostrils to be large and open, allowing for ease of breathing.
Cheeks	Broad and well rounded.
Jaws	Strong and well defined, with the lower jaw fitting smoothly into the broad sweep of the muzzle.
Chin	Firm. In profile, of good depth and in a vertical line with the tip of the nose.
Neck	Short, thick and heavily muscled, especially in males.
Body	Medium to large, well-knit, powerful, muscular and with a short, level back. The chest is broad, deep, well-rounded and is equally massive across the shoulders and rump, balanced by having depth of flank and being low on the legs. The body should be in proportion to the rest of the cat.
Legs	Short, well boned and strong, with straight forelegs. There should be no tendency to taper into fine legs or small feet.
Paws	Round and firm.
Tail	Short and thick, in proportion to the body. It is thick at the base, with a slight taper and a rounded tip.
Condition	Hard and muscular.

Scale of Points

Head and neck	20	
Ears	5	
Eye Shape	5	30
Body	20	
Legs & Paws	10	
Tail	5	35
Coat Length & Texture	10

Faults & Penalties

Refer to general list of faults for all breeds plus:

Penalise:

- **Oriental or recessed eye shape**
- **Definite nose break or stop.**
- **Significant tapering of the nose**
- **Small nostrils**
- **Reduced size of nose leather**
- **Pronounced muzzle pinch, prominent or squared muzzle**
- **Weak chin**
- **Overlong tail**
- **White patches in non-patched varieties**
- **White hairs in coloured parts of coat.**
- **Incorrect coat texture or coat length in adults.**
- **Open coat in adults.**
- **Soft or fluffy tail.**

Withhold:

- **Any resemblance to foreign type.**
- **Fine boning.**

Coat & Colour

Coat Length & Texture	Coat is very short, dense cracking and crisp. When the hand is gently run up the coat, the coat bounces back without leaving gaps. Density and bounce vary according to the actual coat colour and pattern, though ideally all colours have the texture of the British Blue. Kitten coats are commonly less dense and less crisp and are likely to have less bounce. Allowance should be made for this.
Eye Rims & Nose Leather	To harmonise with coat colour. Some allowance may be made for freckling on orange gene cats.
Paw Pads	To harmonise with coat colour.

Coat Colours

SOLID COLOUR GROUP

Coat is to be uniform all over the body, sound and even to the roots, free from shading, white hairs or tabby markings in adults. Slight ghost barring and/or spotting is likely in dilute colours, especially in Blues and Creams, in kittens and should not be penalised. Allowance should be made for tabby markings in Reds and Creams. Light undercoat is a fault.

Black

Coat Colour	Jet-black to the roots. There should be no rusty tinge in adults, though it is permissible in kittens
Eye Colour	Ranges from deep gold through to orange, deep orange, or copper, with no trace of green.
Nose Leather / Paw Pads	Black

White

Coat Colour	Pure, sparkling white, untinged with yellow. White kittens commonly have a coloured spot on the top of the head, ranging from a few hairs to a considerable patch. They should not be penalised for this.
Eye Colour	ORANGE: ranges from deep gold through to orange, deep orange, or copper, with no green rim or flecks. BLUE: blue, the deeper the better. ODD-EYED: one blue eye the deeper the better. The other ranges from deep gold through to orange, deep orange, or copper, with no green rim or flecks.
Nose Leather / Paw Pads	Pink

Blue

Coat Colour	Light to medium blue, sound to the roots, with darker tones undesirable. Silver tipping is a fault.
Eye Colour	Ranges from deep gold through to orange, deep orange, or copper, with no trace of green.
Nose Leather / Paw Pads	Blue

Chocolate

Coat Colour	Any shade of chocolate, sound to the roots, but rich, warm, milk chocolate is preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Chocolate with a pinkish tone.

Lilac

Coat Colour	Warm, soft grey with a pinkish undertone, sound to the roots. While any shade ranging from mushroom pink to soft grey is acceptable, dark or cold tones are undesirable.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Lavender pink, paler in kittens.

Cinnamon

Coat Colour	Rich, reddish brown, with brighter shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Light tan to pink.

Fawn

Coat Colour	Pale, warm pinkish fawn, even throughout and with paler shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Fawn to pink.

Caramel

Coat Colour	Cold, bluish fawn, with a slight metallic overtone. Paler shades are preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Bluish fawn.

Red

Coat Colour	Deep, rich, clear, brilliant red, sound to the roots, preferably without shading or marking of any kind. Slight tabby markings on the head and legs are undesirable but should not be penalised in an otherwise excellent cat. The lips and chin are the same colour as the coat.
Eye Colour	Ranges from orange through to deep orange, copper or deep copper, with no trace of green.
Nose Leather / Paw Pads	Brick red.

Cream

Coat Colour	Pale, even shades of cream, sound to the roots, preferably without shading or markings of any kind. Dark or hot shades of cream are a fault. The lips and chin are the same colour as the coat.
Eye Colour	Ranges from orange through to deep orange, copper or deep copper, with no trace of green.
Nose Leather / Paw Pads	Dusty pink.

SILVER COLOUR GROUP

Smoke Pattern:

The Smoke is a cat of contrasts, having an undercoat as white as possible with the hair tips shading to defined colours. In repose, it looks solid in colour, while in motion the undercoat is clearly apparent. The mask, ears, tail, legs and feet are solid in colour with a narrow band of white at the base of the hairs next to the skin. This is usually seen when the fur is parted. The flanks and belly may have less solid tipping.

Definition of colour is less likely to be seen on patched and intermingled Smokes than on solid colours, though it should still be aimed for.

Smoke kittens undergo many coat changes. Often, pigmentation is lost as moulting approaches. At this time, darkening appears at the roots and sometimes before maturity there are three colours on the hair fibres, sometimes even reversing the desired pattern. Smoke kittens should also not be penalised for ghost tabby markings. Rufousing is a fault in Black or Blue Silvers.

Black Smoke

Coat Colour	Deeply tipped with black, with a white or pale silver undercoat.
Eye Colour	Ranges from deep gold through to orange, deep orange or copper, with no trace of green.
Nose Leather / Paw Pads	Black.

Blue Smoke

Coat Colour	Blue, preferably in paler shades, with a white or pale silver undercoat.
Eye Colour	Ranges from deep gold through to orange, deep orange or copper, with no trace of green.
Nose Leather / Paw Pads	Blue.

Chocolate Smoke

Coat Colour	Any shade of chocolate, though rich, warm, milk chocolate is preferred, with a pale silver undercoat. Darker shades of chocolate are more likely than in Solid Chocolates.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Chocolate, with a pinkish tone.

Lilac Smoke

Coat Colour	Warm soft, pinkish grey, with a pale silver undercoat.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Lavender pink, paler in kittens.

Cinnamon Smoke

Coat Colour	Rich, reddish brown over a white undercoat. Brighter shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Light tan to pink, toning with coat colour.

Fawn Smoke

Coat Colour	Pale, warm pinkish fawn over a white undercoat. Paler shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Fawn to pink, toning with coat colour.

Caramel Smoke

Coat Colour	Cold, bluish fawn with a slight metallic overtone over a white undercoat. Paler shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Bluish fawn, toning with coat colour.

Red Smoke

Coat Colour	Deep, rich red, with a white undercoat, preferably free from shading or markings of any kind. Very slight tabby markings on the head and legs are undesirable but should not be penalised in an otherwise excellent exhibit.
Eye Colour	Ranges from orange through to deep orange, copper or deep copper, with no trace of green.
Nose Leather / Paw Pads	Brick red.

Cream Smoke

Coat Colour	Pale, even shades of cream, with a white undercoat, preferably free from shading or markings of any kind. Dark or hot shades of cream are a fault. The lips and chin are the same colour as the coat.
Eye Colour	Ranges from orange through to deep orange, copper or deep copper, with no trace of green.
Nose Leather / Paw Pads	Dusty pink.

Black Tortoiseshell Smoke

Coat Colour	Patches of black, with varying shades of red and/or cream of equal amount, with each colour to be as brilliant as possible, shading to silver on the flanks, with silver ear tufts and the undercoat as close to white as possible. The mask, ears, tail, legs and feet are coloured in the same way, without other markings of any kind. A red or cream blaze on the face is desirable.
Eye Colour	Ranges from deep gold through to orange, deep orange or brilliant copper.
Nose Leather / Paw pads	Pink and/or black, plain or blotched.

Blue Tortoiseshell Smoke

Coat Colour	Blue and cream, patched and/or softly intermingled and of equal amount, preferably in paler shades. It shades to silver on the flanks, with silver ear tufts and a white undercoat. The mask, ears, tail, legs and feet are coloured in the same way, without other markings of any kind. A cream blaze on the face is desirable.
Eye Colour	Ranges from deep gold through to orange, deep orange or copper, with no trace of green.
Nose Leather / Paw Pads	Blue, plain or blotched with pink, to harmonise with the coat colour.

Chocolate Tortoiseshell Smoke

Coat Colour	Patches of chocolate and varying shades of red and/or cream of equal amount, with each colour to be as brilliant as possible, shading to silver on the flanks, with silver ear tufts and the undercoat as close to white as possible. Rich, warm, milk chocolate is preferred, though any shade of chocolate is accepted and darker shades are more likely than in Solid Chocolates. The mask, ears, tail, legs and feet are coloured in the same way, without markings of any other kind. A red or cream blaze on the face is desirable.
Eye Colour	Ranges from deep gold through to orange, deep orange or copper, with no trace of green.
Nose Leather / Paw Pads	Pink and/or chocolate, plain or blotched.

Lilac Tortoiseshell Smoke

Coat Colour	Warm, pinkish grey and cream, patched and/or softly intermingled and of equal amount, preferably in paler shades. It shades to silver on the flanks, with silver ear tufts and a white undercoat. The mask, ears, tail, legs and feet are intermingled in the same way, without other markings of any kind. A small amount of patching should not be penalised on an otherwise excellent exhibit. A cream blaze on the face is desirable.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Lavender pink or cream, plain or blotched, to harmonise with coat colour.

Cinnamon Tortoiseshell Smoke

Coat Colour	Bright shades of rich, reddish brown with varying shades of red and/or cream over a white undercoat. Colours are to be warm and bright.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Light tan or pink, plain or blotched.

Fawn Tortoiseshell Smoke

Coat Colour	Pale, warm pinkish fawn and varying shades of cream over a white undercoat. Paler shades are preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Fawn or pink, plain or blotched.

Caramel Tortoiseshell Smoke

Coat Colour	Cold bluish fawn and varying shades of red and/or cream, with a slight metallic overtone, over a white undercoat. Paler shades are preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather / Paw Pads	Bluish fawn or pink, plain or blotched.

Tipped Pattern:

COAT COLOUR: The coat on the head, ears, back, flanks and tail are tipped evenly with colour to give a sparkling effect. Even distribution of tipping rather than the degree of tipping is of paramount importance. Heavily tipped cats should not be penalised as long as they are free from markings and are preferable to cats which carry so little tipping that they appear white. Legs may be very slightly shaded with tipping, but the ear tufts, chin, chest, stomach and under the tail must be white or the appropriate light ground colour.

EYE COLOUR: Cats with black or blue tipping have emerald green or blue-green eyes, preferably emerald green. Otherwise, eye colour ranges from deep gold through to orange or copper, depending on the coat colour, with no trace of green. Rims of eyes are to harmonise with coat tipping.

NOSE LEATHER: Shades of pink or brick red, depending on coat colour and outlined in colour to harmonise with the tipping.

PAW PADS: Shades of pink, brick red or black, depending on coat colour, and outlined in colour to harmonise with the tipping.

Silver

The silver pattern has a pure white undercoat and are recognised in tipped, shaded and tabby patterns.

Black Silver

Coat Colour	Tipped with black. The undercoat is to be as white as possible.
Eye Colour	Blue green or green, green preferred. Eyes outlined with a narrow band of black.

Blue Silver

Coat Colour	Tipped with blue. The undercoat is to be as white as possible.
Eye Colour	Ranges from emerald-green or blue-green eyes, preferably emerald green.

Chocolate Silver

Coat Colour	Tipped with any shade of chocolate, though rich, warm, milk chocolate is preferred. The undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Lilac Silver

Coat Colour	Tipped with warm, pinkish grey Undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Cinnamon Silver

Coat Colour	Tipped with rich, reddish brown, with brighter shades preferred. The undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Fawn Silver

Coat Colour	Tipped with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Caramel Silver

Coat Colour	Tipped with cold, bluish fawn with a slight metallic overtone. The undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Red Silver

Coat Colour	Tipped with deep, rich red. The undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper.

Cream Silver

Coat Colour	Tipped with cream, preferably in paler shades. The undercoat is to be as white as possible, though it is likely to be less white than other colours.
Eye Colour	Ranges from deep gold through to orange or copper.

Tortoiseshell Silver

Coat Colour	The colour of the tipping on the ends of the hair fibres is the same as the Tortoiseshell colour description, with the same range of Tortoiseshell colours. Undercoat is to be as white as possible.
Eye Colour	Ranges from deep gold through to orange or copper, to harmonise with tipping.

Shaded Pattern:

The shaded silver pattern has a pure white undercoat, but the overall effect is much darker than the tipped pattern. It has a mantle of coloured tipping shading gradually down the face, sides, and tail from dark on the ridge to pale on the chin, chest, stomach and under the tail, with the lips outlined in the coat colour. Shading commonly exists on the hocks and is to be the same as on the head. Lips are outlined in the same colour as the eye outline. The shaded cats are recognised in all the colours recognised in the silver tipped that is - black, blue, chocolate, lilac, cinnamon, fawn, caramel, red, cream and the tortoiseshell range of these colours. In other respects, the tipped and shaded cats are the same.

Rufousing or tabby marking in shaded silvers other than red or cream shaded silvers is a serious fault.

Faults & Penalties

Refer to general list of faults for all breeds plus:

Penalise:

- **Heavy colour extending up and beyond the hock, though slight shading is permissible.**
- **Tabby Markings on adults.**
- **Rufousing on adults.**

Black Silver Shaded

Coat Colour	Shaded with black. The undercoat is to be a pure white colour.
Eye Colour	Blue-green or green, green preferred. Eyes outlined with a narrow band of black.
Paw Pads	Black.

Blue Silver Shaded

Coat Colour	Shaded with blue. The undercoat is to be a pure white colour.
Eye Colour	Ranges from emerald-green or blue-green eyes, preferably emerald green.
Paw Pads	Rose.

Chocolate Silver Shaded

Coat Colour	Shaded with any shade of chocolate, though rich, warm, milk chocolate is preferred. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Chocolate, with a pinkish tone.

Lilac Silver Shaded

Coat Colour	Shaded with warm, pinkish grey Undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Lavender pink.

Cinnamon Silver Shaded

Coat Colour	Shaded with rich, reddish brown, with brighter shades preferred. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Light tan or pink, toning with coat colour.

Fawn Silver Shaded

Coat Colour	Shaded with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Fawn or pink, toning with coat colour.

Caramel Silver Shaded

Coat Colour	Shaded with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Bluish fawn or pink, toning with coat colour.

Red Silver Shaded

Coat Colour	Shaded with deep, rich red. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Brick red, shading to dark red on the sides.

Cream Silver Shaded

Coat Colour	Shaded with cream, preferably in paler shades. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Dusty pink.

Tortoiseshell Silver Shaded

Coat Colour	Shaded mantle of patches of base colour with red and/or cream. The undercoat is to be a pure white colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Plain or blotched, to harmonise with shading.

SPECIAL NOTE FOR BRITISH SHORTHAIR SILVERS:

While tabby barring on the legs and tail is not desirable, it is often unavoidable because of the short coat of the British Shorthair and is permitted if only faintly visible.

NOTE: Kittens often have ghost shadings of tabby markings these should not be penalised.

Golden:

The golden pattern has a rich, warm cream undercoat instead of pure white. They may be tipped or shaded.

Tipped Pattern:

The coat on the head, ears, back, flanks and tail is tipped evenly with colour to give a sparkling effect. Even distribution of tipping rather than the degree of tipping is of paramount importance. Heavily tipped cats should not be penalised if they are free from markings and are preferable to cats which carry so little tipping that they appear to be rich, warm cream colour. Legs may be very slightly shaded with tipping, but the ear tufts, chin, chest, stomach and under the tail must be golden or a rich warm cream colour. Lips and rims of eyes are outlined in the coat colour.

Black Golden Tipped

Coat Colour	Tipped with black. The undercoat is to be a rich warm cream colour.
Eye Colour	Blue-green or green, green preferred. Eyes outlined with a narrow band of black.
Paw Pads	Black.

Blue Golden Tipped

Coat Colour	Tipped with blue. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from emerald-green or blue-green eyes, preferably emerald-green.
Paw Pads	Rose.

Chocolate Golden Tipped

Coat Colour	Tipped with any shade of chocolate, though rich warm milk chocolate is preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Chocolate with a pinkish tone.

Lilac Golden Tipped

Coat Colour	Tipped with warm, pinkish grey. Undercoat is to be a rich warm cream colour.
Eye Colour	Blue-green or green, green preferred. Eyes outlined with a narrow band of black.
Paw Pads	Lavender pink.

Cinnamon Golden Tipped

Coat Colour	Tipped with rich, reddish brown, with brighter shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Light tan or pink, toning with the coat colour.

Fawn Golden Tipped

Coat Colour	Tipped with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Fawn or pink, toning with coat colour.

Caramel Golden Tipped

Coat Colour	Tipped with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Bluish fawn or pink, toning with the coat colour.

Red Golden Tipped

Coat Colour	Tipped with deep, rich red. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Brick red, shading to dark red on the sides.

Cream Golden Tipped

Coat Colour	Tipped with cream, preferably in paler shades. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Dusty pink.

Tortoiseshell Golden Tipped

Coat Colour	The colour of the tipping on the ends of the hair fibres is the same as the Tortoiseshell colour description, with the same range of tortoiseshell colours. Undercoat is to be a rich, warm colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Plain or blotched, to harmonise with tipping.

Shaded Pattern:

The shaded golden pattern has a rich, warm cream undercoat but the overall effect is much darker than the tipped pattern. It has a mantle of coloured tipping shading gradually down the face, sides and tail from dark on the ridge to pale on the chin, chest, stomach and under the tail, with lips and eyes outlined in the coat colour. Shading commonly exists on the hocks and is to be the same as on the head. In the shaded variety, cats are recognised in all the same colours recognised in the Golden Tipped: that is black, blue, chocolate, lilac, cinnamon, fawn, caramel, red, cream and tortoiseshell.

Black Golden Shaded

Coat Colour	Shaded with black. The undercoat is to be a rich warm cream colour.
Eye Colour	Blue-green or green, green preferred. Eyes outlined with a narrow band of black.
Paw Pads	Black.

Blue Golden Shaded

Coat Colour	Tipped with blue. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from emerald-green or blue-green eyes, preferably emerald-green.
Paw Pads	Rose.

Chocolate Golden Shaded

Coat Colour	Shaded with any shade of chocolate, though rich warm milk chocolate is preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Chocolate with a pinkish tone.

Lilac Golden Shaded

Coat Colour	Shaded with warm, pinkish grey. Undercoat is to be a rich warm cream colour.
Eye Colour	Blue-green or green, green preferred. Eyes outlined with a narrow band of black.
Paw Pads	Lavender pink.

Cinnamon Golden Shaded

Coat Colour	Shaded with rich, reddish brown, with brighter shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Light tan or pink, toning with the coat colour.

Fawn Golden Shaded

Coat Colour	Shaded with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Fawn or pink, toning with coat colour.

Caramel Golden Shaded

Coat Colour	Shaded with pale, warm pinkish fawn, with paler shades preferred. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Bluish fawn or pink, toning with the coat colour.

Red Golden Shaded

Coat Colour	Shaded with deep, rich red. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Brick red, shading to dark red on the sides.

Cream Golden Shaded

Coat Colour	Shaded with cream, preferably in paler shades. The undercoat is to be a rich warm cream colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Dusty pink.

Tortoiseshell Golden Shaded

Coat Colour	Shaded mantle of patches of base colour with red and/or cream. The undercoat is to be a rich, warm colour.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Paw Pads	Plain or blotched, to harmonise with shading.

SPECIAL NOTE FOR BRITISH SHORTHAIR SILVERS AND GOLDENS:

While tabby barring on the legs and tail is not desirable, it is often unavoidable because of the short coat of the British Shorthair and is permitted if only faintly visible.

NOTE: Kittens often have ghost shadings of tabby markings these should not be penalised.

Faults & Penalties

Refer to general list of faults for all breeds plus:

Penalise:

- **Shading on coat.**
- **Lack of adequate tipping.**
- **Tabby Markings on adults.**
- **Heavily coloured hocks on non-shaded varieties.**

Broken Colour Group – Tabby Patterns

British Shorthairs are recognised in classic, mackerel and spotted tabby patterns. The description of these patterns is found in the list that precedes the breed standards.

GENERAL: All tabbies have the following markings in common:

A scarab or "M" on the forehead.

Unbroken stripes running back from the outer corner of the eyes to meet a broken line running from the corners of the mouth and narrow pencillings on the cheeks and around the eyes and nose. Darker-spotted whisker pads.

Solid-coloured ears, which must show a thumb print. One or more necklaces.

Vest buttons or abdominal spots.

Identical markings on both sides of the body. Distinctly and evenly barred legs.

Solid colour on the back of the hind legs from paw to hock.

A ringed tail, with as many rings as possible and a solid-coloured tip of the same colour as the markings.

Clear definition of markings in all tabby patterns is highly desirable. However, in dilute colours, markings and thumbprints may not be as evident.

Markings and thumbprints may be less distinct in young kittens and they should not be penalised for this.

Specific Tabby Pattern Descriptions

CLASSIC/BLOTCHED

All markings to be clearly defined and dense.

A series of lines runs from above the "M" on the forehead, back over the top of the head and extending to the shoulder markings. The shoulder markings form the outline of a butterfly when viewed from above. Both upper and lower wings should be clearly defined in outline, with the central areas broken by small areas of ground colour. On each flank there should be a large oyster-shaped patch, which should be surrounded by one or more unbroken rings. On the back there should be an unbroken line running down the spine from the butterfly to the tail, with a parallel stripe on either side of it. The stripes should be separated from each other by stripes of ground colour. On the neck and upper chest there should be unbroken necklaces, the more the better. The legs should be barred evenly with bracelets from the body markings to the feet, which may be spotted.

MACKEREL

The head, legs and tail are marked the same as the Classic/Blotched Tabby. There should be three narrow, preferably unbroken lines running from the back of the head to the base of the tail. The rest of the body is to be covered with narrow parallel-unbroken lines running vertically down from the spine line. These should be as narrow and as numerous as possible.

SPOTTED

The head is marked the same as the Classic/Blotched Tabby. Necklaces are broken or unbroken. Body and legs are to be as spotted as possible. Spots may vary in size and shape. Spots should not run together or become elongated to give any suggestion of mackerel stripes. A dorsal stripe is ideally composed of spots running the length of the body to the tip of the tail. Spotting should be the same on both sides of the body. Rings on the tail may be broken or unbroken.

Faults & Penalties

Refer to general list of faults for all breeds plus:

ALL TABBIES

Penalise:

- White anywhere except in Silver Tabbies.
- Tail ending in ground colour.

SPOTTED TABBIES

Penalise:

- Solid spine line.
- Pattern faults such as linked spots, stripes or bars except on the head.

Black (Brown Tabby)

Coat Colour	Dense black markings contrasting well with a ground colour of brilliant, coppery brown, including the lips and chin. Hocks should be black.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Brick red or brick red outlined in black or brown.
Paw Pads	Black or brown.

Blue Tabby

Body Colour	Very deep blue markings contrasting well with a ground colour of pale, bluish ivory, including the lips and chin. This gives general warm fawn overtones but remains within the dilute colour range. Hocks should be deep blue
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Rose pink or rose pink outlined in rose.
Paw Pads	Blue.

Chocolate Tabby

Body Colour	Chocolate markings of any shade, though preferably in rich, warm, milk chocolate tones, contrasting well with a ground colour of pale chocolate, including on the lips and chin. Hocks should be darker chocolate.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Chocolate, with a pinkish tone.
Paw Pads	Chocolate, with a pinkish tone.

Lilac Tabby

Body Colour	Warm, soft, pinkish grey markings, contrasting well with a ground colour of pale oatmeal, including on the lips and chin. Hocks should be warm, soft, pinkish grey.
Eye Colour	Ranges from deep gold, through to orange or copper, with no trace of green.
Nose Leather	Lavender pink.
Paw Pads	Chocolate Lavender pink.

Cinnamon Tabby

Body Colour	Bright shades of rich, reddish-brown markings over a ground colour of warm ivory, including the lips and chin. Brighter shades are preferred.
Eye Colour	Ranges from deep gold, through to orange or copper, with no trace of green.
Nose Leather	Light tan or pink rimmed with light tan, toning with coat colour.
Paw Pads	Light tan or pink, toning with coat colour.

Fawn Tabby

Body Colour	Pale, warm pinkish fawn markings over a ground colour of pale ivory, including the lips and chin. Paler shades are preferred.
Eye Colour	Ranges from deep gold, through to orange or copper, with no trace of green.
Nose Leather	Fawn or pink rimmed with fawn, toning with coat colour.
Paw Pads	Fawn or pink, toning with coat colour.

Caramel Tabby

Body Colour	Cold, bluish fawn markings with a slight metallic overtone, over a ground colour of paler fawn, including the lips and chin.
Eye Colour	Ranges from deep gold, through to orange or copper, with no trace of green.
Nose Leather	Bluish fawn or pink rimmed with fawn, toning with coat colour.
Paw Pads	Bluish fawn or pink, toning with coat colour.

Red Tabby

Body Colour	Very deep, rich red markings contrasting with a ground colour of red, including the lips and chin. Hocks should be very deep, rich red.
Eye Colour	Ranges from orange, through to deep orange, copper and deep copper, with no trace of green.
Nose Leather	Brick red.
Paw Pads	Brick red, shading to dark red on the sides.

Cream Tabby

Body Colour	Markings of sufficiently darker buff or cream to contrast well with a ground colour of very pale cream, including on the lips and chin. Hocks should be darker buff or cream.
Eye Colour	Ranges from orange through to deep orange, copper and deep copper, with no trace of green.
Nose Leather	Dusty pink.
Paw Pads	Dusty pink.

Tortoiseshell Tabby (Tortie) Varieties

Body Colour	Clearly defined markings, contrasting well with the ground colour. The colour of the tipping on the ends of the hair fibres is the same as for the Tortoiseshell colour description, with the same range of tortoiseshell colours. Distribution of patching is immaterial. Ground colour is appropriate to that of the Tabbies listed, harmonising with, but paler than, the markings.
Eye Colour	Ranges from deep gold through to orange or copper and harmonises with the colour of the markings, with no trace of green.
Nose Leather	Brick red or blotched.
Paw Pads	Black, brown or blotched.

Faults & Penalties – Other Than Silver or Silver Tabby & White

Refer to general list of faults for all breeds plus:

Penalise:

- Brindling or white hairs in coloured areas.
- Incorrect pattern.
- White tip on tail.
- White chin or white stomach patch.

Silver Tabby

Body Colour	Markings that are clearly defined from the ground colour and are recognised in all colours. They contrast well with a ground colour of clear silver, including on the lips and chin.
Eye Colour	Green preferred, hazel, orange or copper permissible.
Nose Leather	Brick red, with black permissible.
Paw Pads	Brick red, with black permissible.

Tabby & White

Body Colour	Any accepted tabby colour and clear, brilliant white. The patches of tabby colour are to be evenly distributed, ideally with between half and two-thirds of the coat to be coloured. The face is to be patched with colour and a white blaze on the face is desirable, as is symmetry in pattern. Neither white nor any one colour is to predominate.
Eye Colour	To harmonise with the tabby colour with no trace of green.
Nose Leather	To harmonise with the tabby colour and is pink or blotched.
Paw Pads	To harmonise with the tabby colour and are pink or blotched.

Penalise:

- Brindling or white hairs in coloured areas, incorrect pattern or a predominance of white.

General Tabby Faults

Penalise:

- Lack of correct colour on lips and chin.
- Broken necklaces.
- Non-conformity to tabby pattern.

Tortoiseshell

Black Tortoiseshell

Body Colour	Well-defined patches of black, with varying shades of red and/or cream, with each colour to be as brilliant as possible, without intermingling. The colours are to be equally balanced, without black predominating. Legs, paws and ears are to be as well patched as the body and head. A red or cream blaze on the face is desirable.
Eye Colour	Ranges from deep gold through to orange, deep orange and copper, with no trace of green.
Nose Leather	Black or pink, plain or blotched.
Paw Pads	Black or pink, plain or blotched.

Blue Tortoiseshell - Patched

Body Colour	Well-defined patches of blue and cream, without intermingling. Darker shades are likely. The colours are to be equally balanced. Legs, paws and ears are to be as well patched as the body and head. A cream blaze on the face is desirable.
Eye Colour	Deep orange or copper. Green rim or any trace of green a serious fault.
Nose Leather	Blue and/or dusty rose, plain or blotched, to harmonise with shade of coat colour.
Paw Pads	Blue and/or dusty rose, plain or blotched, to harmonise with shade of coat colour.

Blue Tortoiseshell - Intermingled

Body Colour	Blue and cream, softly intermingled; the effect being of pastel shades, giving the appearance of pale shot silk. Though not desirable, one or two small patches should not be penalised.
Eye Colour	Deep orange or copper. Green rim or any trace of green a serious fault.
Nose Leather	Blue or dusty rose, plain or blotched, to harmonise with shade of coat colour.
Paw Pads	Blue or dusty rose, plain or blotched, to harmonise with shade of coat colour.

Chocolate Tortoiseshell

Body Colour	Well-defined patches of chocolate and varying shades of red and/or cream, with each colour to be as brilliant as possible, without intermingling. The colours are to be equally balanced, without chocolate predominating. Rich, warm, milk chocolate is preferred, though any shade of chocolate is accepted, and darker shades are more likely than in solid chocolates. Legs, paws and ears are to be as well patched as the body and head. A red or cream blaze on the face is desirable.
Eye Colour	Deep orange or copper. Green rim or any trace of green a serious fault.
Nose Leather	Pinkish chocolate, rose red or dusty rose, plain or blotched, to harmonise with shade of coat colour.
Paw Pads	Pinkish chocolate, rose red or dusty rose, plain or blotched, to harmonise with shade of coat colour.

Lilac Tortoiseshell - Patched

Body Colour	Well-defined patches of lilac and cream, without intermingling. Darker shades are likely. The colours are to be equally balanced. Legs, paws and ears are to be as well patched as the body and head. A cream blaze on the face is desirable.
Eye Colour	Deep orange or copper. Green rim or any trace of green a serious fault.
Nose Leather	Lavender pink or dusty rose, plain or blotched, to harmonise with shade of coat colour.
Paw Pads	Lavender pink or dusty rose, plain or blotched, to harmonise with shade of coat colour.

Lilac Tortoiseshell - Intermingled

Body Colour	Lilac and cream softly intermingled; the effect being of pastel shades, giving the appearance of pale shot silk. Though not desirable, one or two small patches should not be penalised.
Eye Colour	Deep orange or copper. Green rim or any trace of green a serious fault.
Nose Leather	Lavender pink or dusty rose, plain or blotched, to harmonise with shade of coat colour.
Paw Pads	Lavender pink or dusty rose, plain or blotched, to harmonise with shade of coat colour.

Cinnamon Tortoiseshell

Body Colour	Bright shades of rich reddish brown with varying shades of red and/or cream. Colours are to be warm and bright.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Light tan or pink, plain or blotched.
Paw Pads	Light tan or pink, plain or blotched.

Fawn Tortoiseshell

Body Colour	Pale, pinkish fawn and varying shades of cream, with paler shades preferred.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Fawn or pink, plain or blotched.
Paw Pads	Fawn or pink, plain or blotched.

Caramel Tortoiseshell

Body Colour	Cold bluish fawn and varying shades of red and/or cream.
Eye Colour	Ranges from deep gold through to orange or copper, with no trace of green.
Nose Leather	Bluish fawn or pink, plain or blotched.
Paw Pads	Bluish fawn or pink, plain or blotched.

Penalise:

- **Tabby markings.**
- **White anywhere.**
- **Unequal balance of colour.**
- **Intermingling in any but Blue Tortoiseshell - intermingled or Lilac Tortoiseshell - intermingled.**

Patched Patterns

Bi-Colour

Body Colour	Accepted in all recognised solid colours, tortoiseshell varieties, tabby patterns with white. The patches are to be clear, even, well-distributed. As a preferred minimum the cat should have white on the feet, legs, underside and chest (approximately 1/3rd). White on face desirable. The patches are to be clear, even, well distributed. The face is to be patched with colour and white. In bicoloured tabbies, markings and ground colour of coloured patches correspond to those of recognised tabby colours. A white blaze up the face is preferred.
Eye Colour	Ranges from deep gold through to orange or deep copper, without any trace of green.
Nose Leather	The basic colour, pink or blotched.
Paw Pads	The basic colour, pink or blotched.

Penalise:

- **Tabby markings in non-tabbies except Reds and Creams.**
- **Brindling or white hairs in coloured areas.**
- **Intermingling or uneven balance of colour.**
- **White predominating.**
- **Dark shades in dilute colours.**

Van Pattern

Body Colour	Accepted in all recognised colours, tortoiseshell varieties, tabby pattern with white. White cat with colour confined to the extremities, head, tail and legs. One or two small, coloured patches on body allowable. The head should not be solid in colour and should ideally have a blaze up the face. NOTE: Cats having more than two small body spots should be shown in the regular Bi-Colour class.
Eye Colour	Ranges from deep gold through to orange or deep copper, without any trace of green.
Nose Leather	Pink, or otherwise it corresponds with coat colour on the feet.
Paw Pads	Pink, or otherwise it corresponds with coat colour on the feet.

Penalise:

- Tabby markings in non-tabbies except Reds and Creams.
- Brindling or white hairs in coloured areas.
- Intermingling or uneven balance of colour.
- Dark shades in dilute colours.

Pointed Group

The coat pattern is to be confined to the extremities i.e. mask, ears, legs, paws and tail. Ideally, the body colour should be clear. The mask, ears, legs, paws and tail should all be the same colour as each other, although the ears are often slightly darker than the other points. Good contrast between body and points is required. While clear coat is preferred, ghost shading in kittens should not be penalised. It should also be remembered that body colour often darkens with age, particularly in Seal Points.

Solid Colour

In solid colour pointed British Shorthairs, point colour is sound and even, with body colour as clear as possible. There should be no white hairs, barring, ticking or brindling. Kittens are generally paler in both point and body colour than adults.

Seal Point

Body Colour	Cream. Shading, if any, is to tone into pale, warm fawn on the back.
Point Colour	Clearly defined dense, seal brown.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Seal brown or black.

Blue Point

Body Colour	Glacial white. Shading, if any, is to tone with the cold tone of the points, but of a much lighter shade.
Point Colour	Blue, with paler shades preferred. Dark shades are undesirable.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Blue.

Chocolate Point

Body Colour	Ivory. Shading, if any, is to tone with the point colour, but of a much lighter shade.
Point Colour	Warm, milk chocolate, with paler shades preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Chocolate.

Lilac Point

Body Colour	Off-white (magnolia shade). Shading, if any, is to tone with the point colour, but of a much lighter shade.
Point Colour	Soft, warm grey, with pinkish undertones, with paler shades preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Lavender pink, pink in kittens.

Cinnamon Point

Body Colour	Warm ivory. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Rich, reddish brown, with brighter shades preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Light tan to pink, toning with points.

Fawn Point

Body Colour	Very pale ivory. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Pale, warm pinkish fawn, with paler shades preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Fawn to pink, toning with points.

Caramel Point

Body Colour	Magnolia (off-white). Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Cold bluish fawn with a slight metallic overtone.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Bluish fawn.

Red Point

Body Colour	White. Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Bright, reddish gold or deep apricot, with brighter tones preferred. While it is not desirable, there may be slight barring on the mask, legs and tail.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Coral pink.

Cream Point

Body Colour	Warm white. Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Rich cream, with paler shades preferred. While it is not desirable, there may be slight barring on the mask, legs and tail.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Coral pink.

Black Tortoiseshell Point

Body Colour	Pale cream. Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Bright shades of seal and varying shades of red and/or cream. A blaze up the nose is desirable.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in seal brown, black or pink.

Blue Tortoiseshell Point

Body Colour	Glacial white. Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Blue and cream, with paler shades preferred. A blaze up the nose is desirable.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in blue or pink.

Chocolate Tortoiseshell Point

Body Colour	Ivory. Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Paler shades of warm, milk chocolate and varying shades of bright red and/or cream. A blaze up the nose is desirable.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in chocolate or pink.

Lilac Tortoiseshell Point

Body Colour	Off white (magnolia shade). Shading, if any, is to tone with the point colour, but of a lighter shade.
Point Colour	Warm, soft grey with pinkish undertones and cream, with pale, warm tones preferred. A blaze up the nose is desirable.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in lavender pink or pink.

Cinnamon Tortoiseshell Point

Body Colour	Warm ivory. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Bright shades of rich, reddish brown, red and/or cream.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in light tan and/or pink.

Fawn Tortoiseshell Point

Body Colour	Pale ivory. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Pale pinkish fawn and cream. Paler shades are preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in fawn and/or pink.

Caramel Tortoiseshell Point

Body Colour	Magnolia (off-white). Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Cold bluish fawn and varying shades of red and/or cream, with a very slight metallic overtone.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in bluish fawn and/or pink.

Tabby Point

Coat colour on the body is pale, preferably free from markings. Although it is not desirable, shading may take the form of ghost striping in older cats.

The mask has clearly defined stripes, especially around the eyes and nose. There should be a clearly defined "M" on the forehead, with distinct stripes on the cheeks and darkly spotted whisker pads. The ears have solid colour, without stripes. There is a clear thumbprint on the back of the ear, which is less apparent in dilute colours. Tortoiseshell Points may not show a thumbprint. Eyelids are dark rimmed, with the colour toning with the points.

Legs have clearly defined broken stripes of varied size, with solid colour on the back of the hind legs up the hocks. Points should all be the same colour, but in some colours paws may be lighter in colour. The tail is well ringed, ending in a solid-coloured tip.

Thumbprints may not be as obvious in dilute colours. Kittens should not be penalised for not showing their full markings.

Seal Tabby Point

Body Colour	Cream to warm fawn, shading to lighter tones on the stomach and chest.
Point Colour	Distinct seal brown markings. Background colour is lighter. Ears are seal brown, with a paler thumb print.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Seal brown or pink edged in seal brown.

Blue Tabby Point

Body Colour	Glacial white, cold in tone, shading to white on the stomach and chest.
Point Colour	Distinct blue markings. Background colour is lighter. Ears are deep blue, with a paler thumb print.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Slate blue or pink edged in slate blue.

Chocolate Tabby Point

Body Colour	Ivory, shading to lighter tones on the stomach and chest.
Point Colour	Distinct milk chocolate markings. Background colour is lighter. Ears are warm, milk chocolate, with a paler thumb print.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Chocolate or pink edged in chocolate.

Lilac Tabby Point

Body Colour	Off-white (magnolia shade), shading to lighter tones on the stomach and chest.
Point Colour	Distinct warm, soft grey markings with pinkish undertones. Background colour is lighter. Ears are warm, soft grey with pinkish undertones, with a paler thumb print.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Lavender pink or pink edged in lavender pink.

Cinnamon Tabby Point

Body Colour	Warm ivory, free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined rich, reddish-brown markings. Brighter shades are preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Light tan, pink or pink edged in light tan, toning with points.
Paw Pads	Light tan or pink, toning with points.

Fawn Tabby Point

Body Colour	Pale ivory, free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined pale, warm pinkish fawn markings. Paler shades are preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Fawn, pink or pink edged in fawn, toning with points.
Paw Pads	Fawn or pink, toning with points.

Caramel Tabby Point

Body Colour	Magnolia (off-white), free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined cold bluish fawn markings, with a slight metallic overtone.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Bluish fawn, pink or pink edged in bluish fawn, toning with points.
Paw Pads	Bluish fawn or pink, toning with points.

Red Tabby Point

Body Colour	White, shading to lighter tones on the stomach and chest.
Point Colour	Distinct bright reddish gold or deep apricot markings. Background colour is lighter. Ears are bright reddish gold or deep apricot, with a paler thumbprint.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Coral pink.

Cream Tabby Point

Body Colour	Warm white, shading to lighter tones on the stomach and chest.
Point Colour	Distinct rich cream markings. Background colour is lighter. Ears are rich cream, with a paler thumbprint.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Fawn, pink or pink edged in fawn, toning with points.
Paw Pads	Coral Pink.

Seal Tortoiseshell Tabby Point

Body Colour	Pale cream, shading to lighter tones on the stomach and chest.
Point Colour	Distinct seal brown and varying shades of red and/or cream markings. Background colour is lighter. Ears are mottled, with a paler thumbprint
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in seal brown or pink.

Blue Tortoiseshell Tabby Point

Body Colour	White, shading to lighter tones on the stomach and chest.
Point Colour	Distinct blue and cream markings. Background colour is lighter. Ears are mottled and/or intermingled with blue and cream, with a paler thumbprint.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in blue or pink.

Chocolate Tortoiseshell Tabby Point

Body Colour	Ivory, shading to lighter tones on the stomach and chest.
Point Colour	Distinct milk chocolate and varying shades of red and/or cream markings. Background colour is lighter. Ears are mottled, with a paler thumbprint.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw Pads	Plain or blotched in chocolate or pink.

Lilac Tortoiseshell Tabby Point

Body Colour	Off-white (magnolia shade), shading to lighter tones on the stomach and chest.
Point Colour	Distinct warm, soft grey markings with pinkish undertones. Background colour is lighter. Ears are mottled, with a paler thumbprint.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather / Paw pads	Plain or blotched in lavender or pink.

Cinnamon Tortoiseshell Tabby Point

Body Colour	Warm ivory, free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined rich, reddish brown, red and/or cream markings. Brighter shades are preferred.
Eye Colour	Decidedly blue, the deeper the better.

Nose Leather	Plain, blotched or rimmed in light tan and/or pink, toning with points.
Paw Pads	Plain or blotched in light tan and/or pink, toning with points.

Fawn Tortoiseshell Tabby Point

Body Colour	Pale ivory, free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined pale, warm pinkish fawn and cream markings, with paler shades preferred.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Plain, blotched or rimmed in fawn and/or pink, toning with points.
Paw Pads	Plain or blotched in fawn and/or pink, toning with points.

Caramel Tortoiseshell Tabby Point

Body Colour	Magnolia (off-white), free of markings. Shading, if any, is to tone with the points, but of a lighter shade.
Point Colour	Clearly defined cold bluish fawn and varying shades of red and/or cream markings, with a very slight metallic overtone.
Eye Colour	Decidedly blue, the deeper the better.
Nose Leather	Plain, blotched or rimmed in bluish fawn and/or pink, toning with points.
Paw Pads	Plain or blotched in bluish fawn and/or pink.

Smoke Point

This group has a combination of the point colour of the pointed British Shorthair with smoke characteristics underlying the points, making the cat one of contrast in both ways. By definition, the Smoke Point looks like an ordinary pointed British Shorthair in repose. Point colour is to be solid, deeply tipped with the appropriate colour, with a white undercoat. White bands of hair next to the skin are only apparent when the fur is parted. Ear tufts should be silver to white and the general area may be slightly shaded with a silver or white undercoat. The body should also have a white undercoat.

Special care should be taken to identify Smoke Points correctly, particularly in kittens, whose coats undergo many changes. In the transition from kitten hood to adult hood and to a lesser extent in each summer moult in adulthood, pigmentation is often lost.

Darkening may appear at the roots, making it difficult to be certain if the cat is a Smoke Point. At times, the development of the undercoat may combine with the darkening at the roots to give the points an inside-out appearance.

In all other respects, Smoke Points resemble ordinary pointed British Shorthairs. They should have the same point colour, body colour, nose leather, paw pads and eye colour. They may occur in all pointed colours. Therefore, the ordinary pointed British Shorthair details of standards should be referred to for individual colour details.

Faults & Penalties

Penalise – Applicable to all British Shorthair in the Pointed Group

- **White toes.**
- **Mask extending over the entire head.**
- **Incomplete mask in adults.**
- **White or other incorrect hair colour in points.**
- **Oriental eye shape.**
- **Pale eye colour.**

Withhold

- **Any resemblance to foreign type.**

Breeding Notes

Allowable Outcross

None

Notes

Longhair British are able to be registered as 'British Longhair' for use in a Scottish Fold, Selkirk Rex or Manx breeding program. They are not permitted to be shown.

Standard Updates

March 2023 – Standard reformatted. This reformatted standard includes all previous updates and amendments.

For information on previous standard updates and amendments, please see the Register of Breed Standards Updates on the CCCA website or contact the CCCA Secretary.

3 June 2023 – Change Brown Tabby name to Black (Brown) Tabby

19 November 2023 - "Foundation" section removed as this was not approved for inclusion in the reformatted standard.
